Households	42	52	28	26 (71)	23 (63)
Twitter followers	47	87	???	165	179
Facebook followers			???	255	279

This year has seen the club membership drop slightly but still remain stable in the low hundreds.

There are 23 household memberships which equate to 63 members.

All members are paid up to date.

The greatest percentage of our membership is still from Basingstoke and the surrounding areas.

The majority of our new members have come through attending club events. Primarily the very well organised Grass Autotests. It is still important that our members continue to encourage others to try the club events and social evenings.
